

A Sketch on Opium...

Stertorous breathing with great stupor

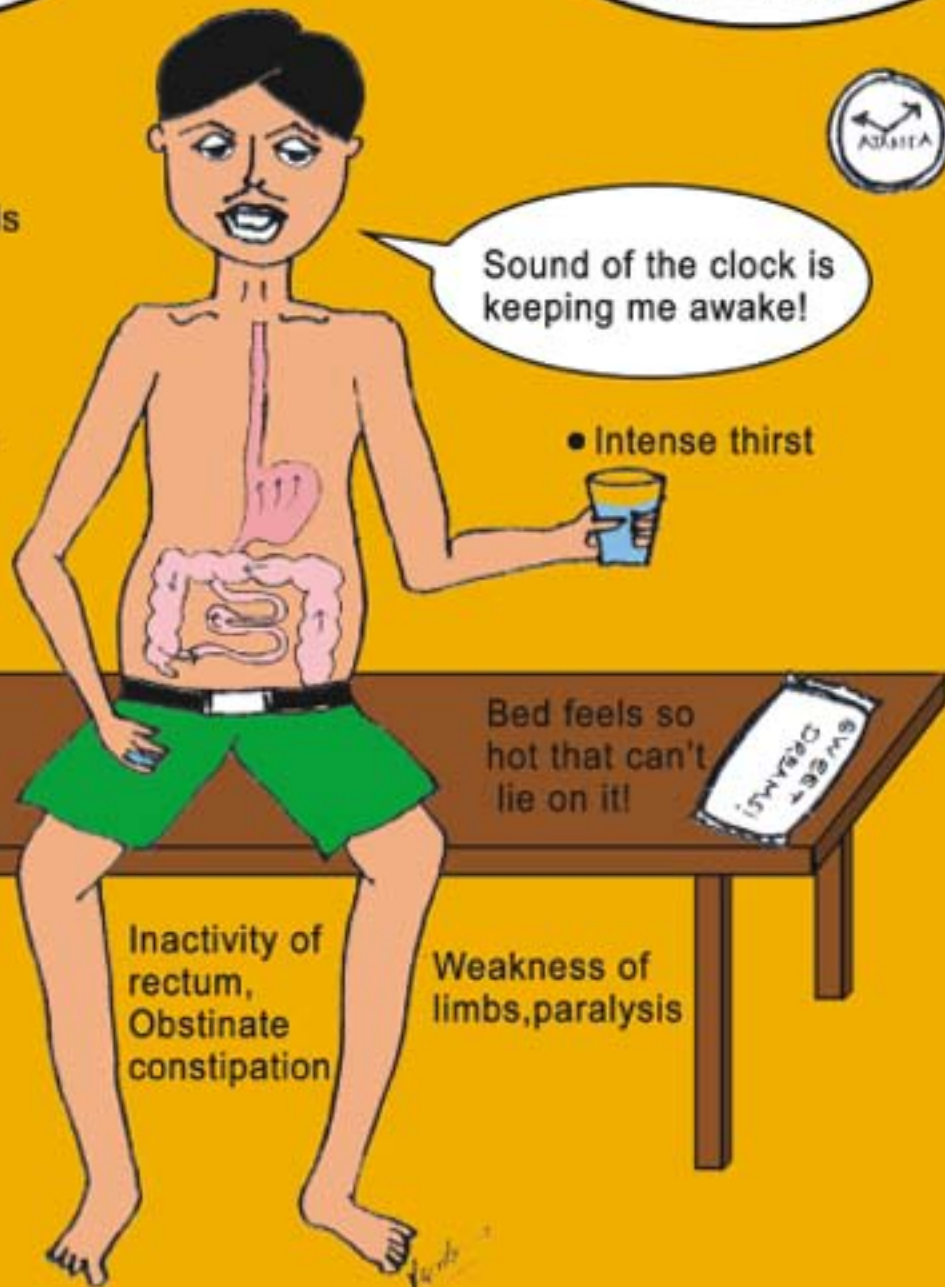

Sleep heavy. Stupid with half-closed eyes

Feels head held down to pillow by Intense pain in brain

<After during sleep.

- Half-closed eyes with uncovered pupils
- Hanging down of lower jaw
- Thermal: Hot ,wants to be uncovered
- Hot perspiration over body except lower limbs

Sound of the clock is keeping me awake!

- Intense thirst

Bed feels so hot that can't lie on it!

Inactivity of rectum, Obstinate constipation

Weakness of limbs, paralysis

PAINLESSNESS

TORPOR
