Male infertility

Dear Readers,

"Male infertility in Homoeopathy", the interesting theme has received many submissions. The topic is very vast and only a few articles had been published pertaining to the availability of the pages.

The articles on "Erectile dysfunctions", "Dynamics of Male Infertility" and "Basics of Male infertility" are interesting and the views expressed by the students, faculties and physicians are also quite interesting to read.

The illustrations by Vekaria Gaurav.M provides essentials tips. Although he has submitted many pictures on different remedies due to non availability of pages all his presentations were not utilised and will be used later.

The Article on "Homoeopathic perspective in seminal analysis" by Dr.P.V.Venkatraman provides in depth knowledge and illustration for the practitioners. A case of "Verruca Vulgaris" by Dr.Chidambaranathan gives encouragement and confidence for the beginners.

This issue carries "Therapeutics and Clinical experiences on Male infertility", and the regular title "History of Medicine" is eliminated.

The focus column on Karnataka state will be an eye opener to know about the present status of Homoeopathy in that state.

Happy reading

With regards

Dr.R.Gnanasambandam
